

REPORT OF EXAMINATION OF ALASKA SALMON STREAM

DEPARTMENT OF COMMERCE
BUREAU OF FISHERIES

Name of stream **Sophie Creek**

Date examined **October 14, 1929.**

Location **$\frac{1}{4}$ mile in from Blinker at mouth of Bay on Westerly side.**

Approximate length **3 miles.** Width **25 ft. Average.** Depth **12 inches average.**

Condition and stage (whether clear, high, low, etc.) **High and a little cloudy.**

Lakes, if any, size, character, and whether accessible from sea **None.**

Salmon run (heavy, light, average, etc.) **Average.**

Date and duration of run of each species **Began August 14 and about over September 25.**

Estimated number of each kind of salmon on spawning beds, or in stream **None at this date.**

Former size of runs of each species and evidence of depletion, if any **Heavy last season, lighter this season, about 80% humpies and balance dogs.**

Natural barriers and whether removable **None.**

Where markers are placed **500 yards each side from mouth.**

Remarks, sketches, etc.

After about 100 yards from mouth there is very little grade for about two miles, which is good spawning ground.

E.H. Patten, Stream Watchman.

(Name and title of employee making examination)

Send original to Washington office, one copy to Seattle office, and one copy to Juneau office.

Use reverse side if additional space is required, or explanatory sketches are made which can not go on this side.
